

TRIBUTE TO MR. PETER VAN DER VELDE

HON. BILL PASCRELL, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, January 26, 2005

Mr. PASCRELL. Mr. Speaker, Mr. ROTHMAN and I would like to call to your attention the work of an outstanding public servant, Mr. Peter Van Der Velde, Captain with the Hawthorne Police Department, who was recognized on Friday, January 21, 2005 for his lifelong dedication to public safety. It is only fitting that he be honored in this, the permanent record of the greatest freely elected body on earth, for he has a long history of leadership, creativity, and commitment to his noble profession.

Mr. Peter Van Der Velde was born on August 23, 1947 in Paterson, New Jersey. He eventually moved from Paterson to the nearby Borough of Ramsey, New Jersey where he finished his formal education. After he graduated, Peter decided to serve in the United States Army and subsequently spent two years stationed in Vietnam. Upon the completion of his tour of duty, he returned home and quickly became an employee of the Passaic County Sheriff's Department.

Captain Peter Van Der Velde has served with the Hawthorne Police Department for 30 years. During his long tenure with the department he has steadily climbed the ranks from Patrolman to Captain and completed countless assignments. Peter began his career with the Hawthorne Police Department in April of 1974 and by December of 1986 he was awarded the title of Sergeant. He then received a promotion to the rank of Lieutenant, before being named Captain.

On October 6, 1993 Peter was appointed to the rank of Captain and immediately he began tackling the Borough's most challenging projects. As Captain he was in command of both the Uniformed Patrol as well as the Auxiliary Police but Peter insisted on expanding his duties. True to his nature Peter assumed as many additional responsibilities as possible including the posts of Traffic Safety Officer and Emergency Management Coordinator.

Captain Van Der Velde exudes courage and dedication. Over the years Peter has been confronted by a wide array of obstacles and in each instance he has proven his resiliency. As President of PBA Local 200 he truly showed his concern for his fellow brethren as well as for the families of those police officers.

The talents that have made Van Der Velde a successful Police Captain were echoed in all the areas of his community service. His multiple roles in the Ramsey Rescue Squad, Ramsey Fire Department, North Haledon Fire Department and the Hawthorne Ambulance Corps have enabled Peter to develop into the inspiring leader he is today.

The job of a United States Congressman involves so much that is rewarding, yet nothing compares to learning about and recognizing the efforts of individuals like Captain Peter Van Der Velde.

Mr. Speaker, we ask that you join our colleagues as well as Peter's family and friends, in recognizing the outstanding and invaluable service of Captain Peter Van Der Velde.

EXTENSIONS OF REMARKS

RECOGNIZING THE NATIONAL CAPTIONING INSTITUTE'S QUARTER-CENTURY OF ACHIEVEMENT IN CLOSED CAPTIONING AND RELATED MEDIA ACCESS TECHNOLOGIES

HON. EARL BLUMENAUER

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Wednesday, January 26, 2005

Mr. BLUMENAUER. Mr. Speaker, as the co-chair of the Congressional Public Broadcasting Caucus, I am introducing a bipartisan resolution to recognize the achievements of the National Captioning Institute, NCI, in providing closed-captioning services and other media access technologies to Americans who are disabled by hearing loss and/or vision loss, or who are limited by their inability to read or master English as a second language. Given that communication delivery systems such as television and, more recently, the Internet, play an absolutely essential role in American society, this resolution salutes NCI's quarter-century of progressive development in bringing media-access technologies to the American people.

The National Captioning Institute was founded in 1979 as a nonprofit corporation with the mission of ensuring that deaf and hard-of-hearing people have access to television through the technology of closed captioning. Prior to this time, captioned television was offered on an extremely limited basis, and the captions were "open," resembling subtitles, an obtrusive system roundly rejected by broadcasters and audiences alike. NCI pioneered the closed-caption technology in which captions could be accessed through special decoder units. This revolutionary solution made it possible for both hearing and hearing-impaired audiences to enjoy television programming at the same time, and made the goal of accessible television a reality. NCI pioneered the way for the first, nationally broadcast closed captioned television programs 25 years ago—an event so momentous that it was announced from the Rose Garden of the White House and made international headlines.

It is estimated that more than 100 million Americans benefit from captioned programming. These audiences include 28 million people who are deaf or hard-of-hearing; children and adults learning to read; and those learning English as a second language. Hearing and nonhearing audiences are most likely to use closed captioning in their homes, although the system is embedded throughout today's society in public spaces such as bars, gyms and airports. As part of NCI's commitment to providing media access to everyone, NCI is making great advances in the development and application of described video technology, a service that provides an audio description of the visual elements of video programming for people who are blind or have low vision, which is an audience of more than 14 million people.

The span of NCI's perseverance and dedication extends far beyond technology for our televisions. NCI established the Nation's only free consumer help desk for communications access issues where citizens may pose questions on topics such as the availability of cap-

tioned programming, how to resolve problems with displaying captions, accessibility of closed captions with digital cable and high definition television, and the availability of closed captions in Spanish and on DVDs and home videos.

In addition to its technologic achievements, NCI recently took the lead on auditing how the entire captioning industry is performing. It commissioned the field's first study to evaluate the quality, availability, and use of the Nation's use of captioning services in order to improve performance throughout the entire captioning industry.

In light of all of the above achievements, I look forward to working with my colleagues to pass this resolution and demonstrate our support for the National Captioning Institute's dedication to improving media access to millions of our fellow Americans.
